**DETAILED ACTION**

***Election/Restrictions***

1. Upon further consideration, restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-12 & 15, drawn to a device for measuring and assessing the mutual alignment of bodies including an optical gyro, classified in class 33, subclass 286.
- II. Claims 13 & 14, drawn to a process for measuring and assessing the mutual alignment of bodies, classified in class 340, subclass 952.

2. The inventions are distinct, each from the other because of the following reasons:

Inventions II and I are related as process and apparatus for its practice. The inventions are distinct if it can be shown that either: (1) the process as claimed can be practiced by another materially different apparatus or by hand, or (2) the apparatus as claimed can be used to practice another and materially different process. (MPEP § 806.05(e)). In this case the process disclosed in claims 13 & 14 can be practiced by another materially different apparatus such as one which does not require an optical gyro.

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, and divergent subject matter, restriction for examination purposes as indicated is proper.

4. A telephone call was made to Mr. David Safran on 11/18/02 to request an oral election to the above restriction requirement, but did not result in an election being made.

Art Unit: 2859

5. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Travis M Reis whose telephone number is (703) 305-4771. The examiner can normally be reached on 8:00--5:00 Monday--Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Diego Gutierrez can be reached on (703) 308-3875.
